Call today to secure your child an appointment!

Dr Robert Marx had a vision in 1989 that all children should receive proper dental care, so he founded Have a Heart Day. Over 3550 underserved children have been seen and helped throughout the 36 years Marx Family Dental has hosted this special day of dental care. In the beginning of this endeavor, Dr Marx would have 100's on a waiting list. Because of the vast number of underserved children that could not be seen in his office, many different organizations not only locally, but nationwide have helped to make Dr. Robert G. Marx's original dream of dental care for all children come to a reality. This has made a dream come true for children all over Kansas City being helped with proper dental care.

***This year Dr. Emily Marx continues her father's legacy and celebrates
37 years of helping children with their smiles!***

Over the past several years, as things have been so uncertain for many families, Dr. Emily Marx knows children need to have regular dental cleanings and exams, the same as adults. But for many reasons, not all children are able to receive regular dental care. This may prevent minor problems from being corrected and may result in small problems becoming large ones. No one wants this to happen, but it frequently does.

Have a Heart Day is a day of **FREE** cleanings and exams for children ages 3-12 years old, who are accompanied by a parent or guardian, and who are not already patients at our offices and who are not receiving regular dental care. Children that have additional needed treatment will be taken care of at a later date.

This will occur **Saturday, February 21st, 2026**; Children will be seen at Marx Family Dental
To bring your children in for this service, you must make an **advance** appointment.
